**Press Release**

**Date: 11/13/08**

**Bella Mia, Inc.**

**Subject : Bella Mia, Inc. division HostDrive.Com now offers Magento Hosting**

We've upgraded our servers to support the new Magento eCommerce Solution that is sweeping the web. "Magento is a feature-rich eCommerce solution offering complete flexibility and control over the look, content and functionality of an online store. For more information, please download the Magento Feature list here, or visit the Magento Web Site here: <http://magentocommerce.com>

**About Magento by Varien**

Varien is an experienced player in the Open Source eCommerce segment that has been, since 2001, leveraging the power of Open Source technology to help online merchants fulfill their business goals. And, at a fraction of the cost and time of proprietary eCommerce solutions. Our clients are a new generation of store owners eager to materialize on their creative ideas and gain an edge in their industry. For years they heard "no". They turn to us for our expertise, guidance, level of execution and a passion matching theirs.

**About Bella Mia, Inc.**

Bella Mia is a privately held Web Hosting, Dedicated Server, Internet and Colocation provider located just North of Chicago in Lake Geneva, Wisconsin. We provide a wide range of services, including web hosting, dedicated servers, server colocation, domain registration, secure certificates, dialup, and more. We have been providing internet services since 1997. Some of our current customers include, the FAO (Food and Agriculture Organization of the United Nations), The University of Florida, Akamai Technologies, Software Developers and several Major Web Host Resellers. Our NOC is connected via multiple Fiber connections from Time Warner Telcom and AT&T. Our 100% switched, Cisco Routed Network runs BGP4 (Border Gateway Protocol) for redundancy to insure that our network is running at 99.99% uptime. We have our own ASN and IP Space and as such are completely autonomous.
